Include the textbooks required for the course. Consider indicating whether students can use different editions than the one specified.

**Submission Requirements**

- What is your policy regarding assignments?
- Do you want to make sure all work is uploaded?
- Do you accept late work?
- What happens when assignments are late?

**Required Coursework Policies**

- How does course grade break down in terms of required coursework?
- How will each assignment be assessed?
- What do students need to know to be successful in your course?

**The Academic Honor Code**

The Academic Honor Code is one of the few required elements that must appear in all syllabi at Trinity.

All students are covered by a policy that prohibits the infringement of academic integrity. Under the Honor Code, a faculty member can refer to a student for any academic or behavioral violations.

Submit Learning Outcomes

Student Learning Outcomes are helpful in illustrating any successes and, if explicitly stated, can help students identify what they will need to learn in the course.

Course learning outcomes must include learning objectives that give the requirements of the material.

What else?

Feel free to stop by the Collaborative to discuss other elements and information that are helpful to include in your syllabus.
