TRINITY UNIVERSITY FACULTY DEVELOPMENT COMMITTEE
APPLICATION FOR SUMMER STIPEND FOR 2015

The President of the University, upon recommendation of the Faculty Development Committee (FDC) and the Vice President for Academic Affairs, will award a number of summer stipends for Summer 2015. Full information on the Summer Stipend policy and the Standard Operating Procedures of the FDC is in Chapter Four of the Faculty and Contract Staff Handbook.

SUMMER STIPENDS
The purpose of a summer stipend is to encourage faculty, through the provision of summer salary support, to develop research projects, intensive scholarly activities, and activities in creative and performing arts. Summer stipends are paid at the same dollar amount for all awards. The maximum number of summer stipends and the specific dollar amount of the stipends will be set by the administration.

SPECIAL PROJECT EXPENSE GRANTS
Support for expenses, if any, associated with the summer stipend project should be requested through the Office of Academic Affairs by contacting Mark Brodl (AVPAA:B&R). The project should not be dependent on the availability of a special project expense grant.

REQUIREMENTS
Recipients of summer stipends are required to devote at least two months (eight weeks) of full-time commitment to their project. Summer school teaching is not permitted. A report describing the activities during the period of the grant is due to Mark Brodl (AVPAA:B&R) on September 18, 2015.

ELIGIBILITY
All full-time faculty members are eligible for summer stipends, contingent upon their acceptance of a continued non-terminal appointment for the following academic year, except in the following cases:

- Recipients of Faculty Fellowships are not eligible for stipends recommended by the FDC while they are receiving the fellowship. Faculty Fellows also cannot receive a summer stipend during the summer following the last year of the Fellowship. (For example, if a Fellowship ran from 2010 to 2012, the faculty member would be eligible for a summer stipend in 2014 but not in 2013.)
- Summer stipends are not available to non-tenured faculty who have not completed all requirements for the appropriate highest degree in their fields at the time applications are to be submitted.
- Summer stipends are not available to non-tenured faculty after they have been given notice that they will receive a terminal contract.
- A faculty member may apply for a summer stipend and an academic leave during the same academic year (June 1 through May 31), but no more than one award will be recommended for funding. Before making any award recommendation, the faculty member will be consulted as to his or her preference.
- A faculty member may not receive a summer stipend either the summer before or the summer after the year during which he/she is on academic leave.
- Faculty members who received a summer stipend in the previous year are not eligible to apply.
- Faculty members on 12-month contracts may apply and awards will be made for Summer Stipends, provided that arrangements for release time can be made. Summer stipend compensation will be in lieu of, but not in addition to, regular salary.

NOTES

- Applicants may request to review examples of previously funded proposals for summer stipends, which are available in the Office of Academic Affairs (contact Mark Brodl, AVPAA:B&R).

- Stipend applicants are strongly encouraged to seek feedback from departmental colleagues, as well as faculty outside of the department. Such feedback may help the applicant to prepare a proposal that is in clear and concise language that can be easily understood by FDC panelists from other disciplines.

- The FDC will recommend awards to the Vice President for Academic Affairs, who will send them forward with his recommendations to the President. Awards will be announced in mid-December 2014.

- The report sent to the Department Chair and the AVPAA: B&R (Mark Brodl) by Sept. 18, 2015, should describe what was accomplished during the stipend research. Supporting documentation, such as manuscripts, musical scores, and other appropriate documentation, may be appended to the report and will be returned after the reports have been read.
