DEDICATED TO STUDENTS. FOCUSED ON TEACHING.

Why Trinity? Why Business?

We are dedicated to students and focused on teaching.

We provide an intimate, small school experience within the heart of a large, vibrant city.

We are globally minded and committed to experiential learning.

We encourage students to take introductory Business courses during their first year on campus.

We offer a distinctive, AACSB-accredited business program within the framework of a #1 ranked liberal arts university (20+ consecutive years, Western region, U.S. News & World Report).

Theory and Practice

Our students collaborate in a variety of project-based courses that utilize real-world data for analysis, valuation, and strategic planning.

Our students act as consultants for non-profits, small businesses, corporations, and the City of San Antonio on projects relating to marketing, economics, and business analytics.

Our students manage over $5 million of the Trinity University endowment via the Student Managed Fund.

Our students serve paid internships with a wide range of local, national, and international companies.

Distinctive Programs

We contribute to Trinity’s cross-disciplinary programs in Arts, Letters, and Enterprise (ALE), Communication Management, and Sport Management.

We help to deliver Trinity’s innovative major in Mathematical Finance, which provides a specialized skill set for students who are interested in Applied Mathematics, Finance, and Economics.

Our Master’s Program in Accounting provides a fifth year of intensive study for Accounting students, with a 100% placement rate at Big 4 and other global public accounting firms.

Mission Statement

The School of Business offers an integrated, innovative undergraduate and graduate program for students who are well grounded in the liberal arts. Building on a firm understanding of the fundamentals of business and rigorous discipline-specific instruction, students continue to learn and apply advanced concepts experientially.

Our programs produce globally aware, ethically sensitive, technologically proficient graduates who think critically, communicate effectively, and understand business as a consequence of both field and classroom involvement.

Student Success

For CPA Examination sections taken within one year of graduation, our Master’s in Accounting students typically achieve a pass rate of approximately 80%. The national average pass rate is 55%.

Our Student Managed Fund (SMF) has outperformed the S&P 500 in three of the past four years. For most of this period, SMF’s performance outpaced over 90% of Lipper large-cap funds.

DEVELOPING STUDENTS WHO UNDERSTAND BUSINESS

Our Marketing and Management students are engaged in numerous consulting projects with businesses and nonprofit organizations. In one annual project, Marketing students team with the City of San Antonio to evaluate the economic impact of the San Antonio Stock Show and Rodeo.

Over 90% of Accounting majors typically serve paid internships with global public accounting firms. The internships occur during senior year and lead to full-time positions in audit and tax.

Our top Finance students participate in the Student Managed Fund (SMF) Program. The Director of the SMF Program is a seasoned investment professional, demonstrating our commitment to theory and practice.

Each summer, many of our students take part in faculty-led programs in Europe and Asia. Students in these programs take courses at host universities and also serve internships related to international business.

All seniors are engaged in a semester-long global business simulation in our capstone Business Policy course.

Our new Business Analytics and Technology (BAT) major gives students hands-on experience with Big Data and cutting-edge business applications. BAT courses are built around consulting projects with prominent organizations.

CHOOSE TRINITY FOR BUSINESS.
