Working together as a community, we will continue to promote safety and security at Trinity.

Sincerely,

Paul J. Chapa
Chief of Police
**Mission Statement**

The mission of the Trinity University Police Department is to work with the highest integrity in partnership with our campus community to enhance quality of life by providing exemplary police service for all in a proactive, progressive, and professional manner.

**Policy Statement**

Trinity University annually publishes this campus security report and fire safety report in compliance with the Jeanne Clery Act, formerly known as the Campus Security Act. It includes security policies, campus crime statistics, and fire safety information.
**Procedures for Reporting Incidents**

Trinity has established campus policies regarding procedures for students and others to report crimes or other emergencies on campus. The University Police Department encourages accurate and prompt reporting of all crimes to the campus police and the appropriate police agencies, including when the victim of a crime elects to or is unable to make such a report.

1. All victims of crimes that occur on the campus or persons observing crimes against property or persons, suspicious activities, or accidents should report these incidents to the University Police Department at (210) 999-7070. **The emergency phone numbers are (210) 999-7000, and “7000”, or “911” can be dialed from any campus phone.** Blue light and emergency phones are located in outdoor areas on campus and in elevators. University police officers are on duty at all times and patrol by foot, motor vehicle, and bicycle.

2. For crimes that occur off campus, you should report crimes to the applicable local law enforcement agency. For crimes that occur within the City of San Antonio, you should contact the San Antonio Police Department, at: (210) 207-7410.

3. Students and employees may seek assistance in reporting criminal offenses, and identifying the appropriate jurisdiction to receive a report from the University Police Department (210) 999-7070, Counseling Services (210) 999-7411, Residential Life (210) 999-7219, Health Services (210) 999-8111, the Title IX Coordinator (210) 999-7835, and the Dean of Students (210) 999-8843.

4. The Trinity University Police Department provides all victims of crimes that occur on campus, or to persons involved in serious traffic accidents, the opportunity to report the incident to the Trinity University Police or the San Antonio Police. If a victim declines to report the matter to the local police, the incident will be handled as an institutional matter, whether or not it is being investigated by the University Police or a municipal police agency.

5. If you are the victim of a crime and do not want to pursue action with the University system or the criminal justice system, you may still want to consider making an anonymous report. You may do this by calling (210) 999-7821 or by email: cp@trinity.edu. The Chief of Police, Paul Chapa, will file a confidential report on the details of the incident without revealing your identity. The University can keep an accurate record about the number of incidents involving students and alert the campus community of potential danger. Reports filed in this manner are counted and disclosed in the annual crime statistics for the institution without including personally identifiable information about the victim.

6. Pastoral and professional counselors, if and when they deem appropriate, will inform person they are counseling of their options to report crime, including confidentially, for inclusion in the crime statistics publish in the University annual security report.

These “Best Practices” were carefully developed by Texas Law Enforcement professionals to assist agencies in the efficient and effective delivery of service, the reduction of risk, and the protection of individual’s rights. Also, TUPD acquired Accreditation from the International Association of Campus Law Enforcement Administrators (IACLEA). IACLEA Mission: Advance public safety for educational institutions by providing training, research, advocacy, accreditation, education, and professional services. IACLEA is the leading authority for campus public safety.

2. The San Antonio Police Department, the Bexar County Sheriff’s Office, other local police agencies, state agencies, and federal law enforcement agencies have criminal jurisdiction on the Trinity University campus. In addition, unlawful acts reported to the University that involve University students are investigated and referred to local law enforcement agencies, when appropriate. Local law enforcement agencies may also notify the university when students or recognized student organizations engage in criminal activity.
3. The Trinity University Police Department has a Memorandum of Understanding with the San Antonio Police Department and Bexar County Sheriff’s Office. University Police cooperate with outside law enforcement agencies and exchange critical information.

**Access to Facilities**

1. Students, faculty, and staff are required to carry Trinity University identification cards while on campus and are required to present these cards to authorized representatives of the institution upon request.

2. Athletic facilities are available for use by the University community. Information on use of the facilities is available from the University Communications Office and the Athletics Office.

3. All residence halls are locked and/or access controlled by security cards. Each resident’s room is equipped with a deadbolt lock on the front door. All rooms have either a security viewer on the front door or a clear view of the front door area from a window. During semester breaks and vacation periods, door locks to student rooms are plugged with a security device to prevent entry. Students are responsible for keeping their doors locked at all times. Additional security precautions for students to follow are provided in the Student Handbook at [https://policies.trinity.edu/files/84378d17-608f-4ea0-ace0-0fe459c62859.pdf?v=13554](https://policies.trinity.edu/files/84378d17-608f-4ea0-ace0-0fe459c62859.pdf?v=13554)

6. The grounds of the University are open to the public, subject to visitors complying with the rules and regulations of the University. This includes visitors identifying themselves upon request by officials of the University.
Maintenance of Campus Facilities

Various programs are designed to inform students and employees about campus safety procedures and practices. Student and employees are encouraged to be responsible for their own and others’ security and safety.

1. The University has established the Safety, Security, and Health committee to assist in reviewing, recommending, and establishing policies, procedures, and practices. The committee is made up of faculty, staff, and students. Examples of on-going review are lighting surveys and the development and delivery of safety classes.

2. Staff members are provided with security orientation information during their initial employment evaluation period. In addition, new students receive information about safety procedures and practices at the beginning of their first year at Trinity.

3. Ongoing crime prevention and awareness information and personal/safety classes and programs are presented to student and employee groups throughout the year. Examples: Community Awareness and Resource Team, Operation ID, personal safety, theft prevention, active shooter training, and the RAD Program (Rape Aggression Defense Systems-Women’s Self-Defense program). These programs are offered frequently and information can be found at the University Police Department. For more information on these programs, please contact our Crime Prevention line at (210) 999-8538.

4. Continuous maintenance is performed in order to heighten the safety of our campus community. This includes the replacement of lights that are non-functions. Also, trimming vegetation for visual safety, and the servicing/sustainment of access control.
**Notification, Emergency Response, and Evacuation Procedures**

Upon confirmation of a significant emergency or dangerous situation, University Police will, without delay, notify the campus community through the University’s Emergency Messaging System unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. If there is an immediate threat to the health or safety of students or employees occurring on campus, the Trinity University Police will follow emergency notification procedures and provide follow-up information, in a timely manner, to the University community.

The Chief of Police and/or the Emergency Manager will assess the emergency to confirm the existence of a significant emergency or dangerous situation, notify University officials and the crisis management team, determine the appropriate segment of the campus community to be notified, and determine the content of the notification. The Police Dispatcher will then initiate the emergency notification system. This system includes: VOIP telephone, TrinAlert, outdoor speaker system, and a campus wide email system.

In the event of an emergency that would affect the larger community (including for emergencies or dangerous situations on streets adjacent to the University), the University Communications Office would notify local media. The University also has information available through an emergency hotline (888-57-ALERT) and the emergency website: [http://emergency.trinity.edu](http://emergency.trinity.edu). University Police tests the emergency messaging system on a monthly basis. To sign up to receive the emergency notification: [https://new.trinity.edu/emergency](https://new.trinity.edu/emergency)

The University tests the emergency response and evacuation procedures on at least an annual basis, including thorough tests that may be announced or unannounced and by publicizing its emergency response and evacuation procedures in conjunction with at least one test per calendar year. For each test, the University documents a description of the exercise, the date, time, and whether it was announced or unannounced. The University’s emergency preparedness & procedures can be found at: [https://inside.trinity.edu/university-police/emergency-preparedness](https://inside.trinity.edu/university-police/emergency-preparedness)
**Timely Warning**

The University distributes Timely Warning notices on a case-by-case basis to notify the campus community of crimes that have been reported to the Trinity University Police Department that are considered by the University to represent a threat to students and employees, to aid in the prevention of similar crimes, or to provide follow up information for the community relating to an emergency notification. The Chief of Police or his designee will provide Timely Warning notices and special security bulletins distributed throughout campus facilities and residential areas to alert the community of crime patterns and suspect information on a situational basis. The name(s) and other identifying information of victim(s) will be withheld in these warnings. The distribution of warnings is accomplished through University wide e-mail and Community Crime Alert postings. The University is not required to provide timely warnings for crimes reported to a pastoral or professional counselor.

**Missing Students**

In accordance with Federal Regulations (U.S. Department of Education Clery Act amendments 2008) and in the best interest of student safety, Trinity University has established a procedure for reporting missing students who reside on campus.

Specifically, anyone (including students, employees, family members, employers, etc.) can, and must, report a missing resident to the Trinity University Police Department 999-7070, immediately. University officials are available to assist and support those reporting missing persons. While a 24-hour window of waiting time is standard, reports can be made anytime a concern arises. The University will notify local law enforcement within 24 hours of the determination that a student is missing, unless local law enforcement was the entity that made the determination the student was missing.

Parents and guardians as listed in the University data system will be notified in the event a report of a missing student has been filed, within 24 hours of the determination the student is missing. If a student wishes to identify a different individual for notification,
his or her contact information must be sent by e-mail to the Residential Life Office at ResLife@trinity.edu. However, if a student is under 18 years of age and not emancipated, the university must notify a custodial parent or guardian within 24 hours of the determination that the student is missing, in addition to notifying the additional contact person designated by the student.

All information, about whom the student has designated as the missing person contact is kept confidential, will be accessible only to authorized campus officials, and will not be disclosed, except to law enforcement personnel in furtherance of a missing person investigation. Trinity University Police will notify San Antonio Police Department if a student is reported missing.

Also, you may report the assault directly to the San Antonio Police Department (for non-emergency calls: (210) 207-7273, for off-campus emergencies: 911) and the Trinity’s University Police staff can assist you with this process.

**Report to University.** A victim who wishes to file an informal or formal complaint against another member of the University community, of sexual assault, dating violence, domestic violence, or stalking, whether the offense occurred on or off campus, should notify the Title IX Coordinator (210) 999-7507. The victim will be provided with a written explanation of the rights and options to file a complaint.
Confidential Assistance and Resources. You may also seek help confidentially from the providers at Counseling Services (210) 999-7411 Health Services (210) 999-8111, the university chaplain (210) 999-7311, or the Rape Crisis Center (210) 349-7273. If you are in an emergency situation, call (911).

3. Notice of Rights and Options. Trinity University will provide the student or employee with a written explanation of their rights and options for seeking resources or and filing a complaint, as set forth fully below. Accommodations and protective measures are available regardless of whether someone files a complaint and regardless of whether the conduct occurred on- or off-campus.

4. Accommodations and Protective Measures. Individuals will receive information about their rights and the availability of accommodations and protective measures, as well as information about how to request the same in writing to the Title IX Coordinator. Such accommodations and protective measures may include, but are not limited to: counseling, health, mental health, victim advocacy, legal assistance, visa and immigration assistance, student financial aid, and other services within the institution and the community. Individuals will also receive information about options for and available assistance in changing academic, living, transportation, and working situations.

The University may also take action unilaterally as it deems necessary in response to allegations and/or finding of policy violation in order to protect members of the University community. Such measures include, but are not limited to, modification of living arrangements, reassignment of classes as available or removal from classes, interim suspension from campus pending a hearing, and reporting the matter to law enforcement.

Trinity University will keep the protective measure provided to victims confidential to the extent confidentiality would not impair the University’s ability to provide these supports. These measures are available upon request, regardless of whether a victim makes a report to TUPD or other law enforcement agency.

5. Preservation of Evidence. Individuals who have experienced sexual misconduct are encouraged to preserve evidence to the greatest extent possible. Evidence of a sexual assault and the attacker’s identity may be left on the victim’s body. Therefore, individuals who have experienced sexual assault are encouraged to go to Methodist Specialty and Transplant Hospital Emergency Room at 8026 Floyd Curl Drive, San Antonio, Texas (210-575-8168) for an exam as quickly as possible because the evidence deteriorates
quickly and may be important in supporting the sexual assault allegation in criminal or administrative proceedings. It is recommended that a victim of sexual assault not wash in any way until after a special forensic examination is performed. However, even if you believe that too much time has passed for the collection of physical evidence or if you have already washed yourself, the forensic exam may still identify and preserve extremely important evidence such as the information you provide verbally.

Methodist Specialty and Transplant Hospital Emergency Room is the only local hospital with staff trained and equipped to perform specialized examinations following a sexual assault, and services are available 24 hours a day, seven days a week. The hospital staff at Methodist Specialty and Transplant Hospital is trained to collect forensic evidence, check for injuries and deal with the possibility of exposure to sexually transmitted diseases. A sexual assault nurse examiner (SANE) is a hospital staff member who handles sexual assault and is specifically trained to: provide comprehensive care to sexual assault survivors, demonstrates competence in conducting a forensic examination, has the ability to testify as an expert witness, and shows compassion and sensitivity to survivors of sexual assault.

Anyone who may have ingested an unknown substance (such as a “date rape” drug) should also be screened as soon as possible, as these substances may quickly leave the blood system.

In addition, you should preserve all other potential evidence such as text or social media messages, emails, phone messages, photos or videos, etc. One way to do this to save this information to the cloud or email it to yourself or a trusted friend. If you do not want your friend to look at it, you can request that not look at it and/or secure it with the use of a password or encryption.

6. **Prompt, Fair and Impartial Proceedings.** As set forth more fully below, the University provides a reasonably prompt process that provides consistency and equal rights to the parties, from the initial report to the final result. The investigation will be conducted by officials who, at a minimum, receive training on dating violence, domestic violence, sexual assault, and stalking and on how to conduct an investigation and hearing process that protect the safety of victims and promotes accountability and who do not have a conflict of interest or bias for any party.

7. **Complaint Process**

As set forth above, an individual who wishes to have a complaint reviewed administratively, within the institution, should contact the Title IX Coordinator at (210) 999-7507. The staff will explain Trinity University procedures. Persons can also contact the Title IX Coordinator for a campus advocate. The accusing
party can decide whether or to not pursue an informal resolution or a formal complaint. When possible, the University will respect the wishes of the accusing party. The University’s ability to investigate the matter may be negatively impacted by the accusing party’s desire to keep the matter confidential. When necessary due to the circumstances, the University may initiate its own investigation of instances of sexual misconduct.

Accusing persons shall be notified of their options to notify law enforcement and to be assisted by campus authorities. Accusing persons have the right to decline to report to law enforcement. Accusing persons have the right to have their cases referred for administrative campus investigations and review under the applicable University policy (Anti-Harassment Policy for complaints against non-students; Sexual Misconduct Policy for complaints against students). The process will provide a prompt, fair, and impartial investigation and resolution. The individuals conducting the investigation will receive annual training in issues related to domestic violence, dating violence, sexual assault, stalking, and how to conduct an investigation and hearing process that protects the safety of victims and promotes accountability. The accuser and the accused are entitled to the same opportunities to have others present during the process, including the advisor of one’s choice. Both parties will have the same opportunity to present information and identify witnesses. Both parties will be provided with access to information that will be used during informal and formal disciplinary meetings and hearings. All parties should expect to be treated with respect by university officials. All persons participating in the complaint process have the right to be free from retaliation. Parties have the rights to seeks assistance from Trinity University Police Department or the San Antonio Police Department for court- ordered no contact or protective orders.

The University strives to complete investigations within sixty (60) days; however, the length of investigations may vary and the timeline may be extended at the discretion of the Investigator(s). As set forth in the Anti-Harassment and Sexual Misconduct Policies, the investigator(s) will make a written finding and recommendation. The results of the investigation will be sent to the appropriate University administrator for a determination regarding sanctions, if applicable, in accordance with applicable policy.

8. **Standard of Evidence.** Trinity University uses the “preponderance of the evidence,” standard, which asks decision-makers to consider whether it is more likely than not that a violation occurred.

9. **Confidentiality.** The university will maintain confidentiality and discretion to the extent it is able in compliance with its policies and the law. Unless waived in writing, the identity of the accusing party will be only disclosed as necessary to conduct a criminal investigation, or an administrative investigation, hearing, and appeal.
Basic information may also be shared confidentially within the University as required to comply with reporting obligations under federal and state law. Basic information that does not identify any person will also be shared in reports on the University’s website in order to comply with the requirements of Texas law.

10. **Outcomes and Appeals** Accused and accusing parties are simultaneously notified, in writing, of all outcomes. In student cases, both parties are given an opportunity to appeal. The parties in a case generally have the right to respond once, in writing, to the information submitted by the other party. All procedures are at the sole discretion of the Conduct Review Board Chair. Possible sanctions for students and employees found to have violated applicable policies are as follows:

**Potential Sanctions for Students.** Students found responsible for violating the Sexual Misconduct policy will be sanctioned. Not all forms of sexual misconduct are equally serious offenses, and the University reserves the right to impose different sanctions, ranging from verbal warning to expulsion, depending on the severity of the offense and taking into account any previous campus conduct code violations. The University may also impose restrictions (such as no contact orders) or educational remedies (such as training) at its discretion, whether or not a party is found responsible for violating the policy. Variation from the guidelines below is possible but must be explained in writing:

- Any student found responsible for violating the policy provisions on Sexual Harassment, Sexual Exploitation, Stalking or Retaliation will likely receive one of the following sanctions: warning, general warning, probation, probation with suspension of privileges, suspension, or expulsion.

Positive Options for Bystander Intervention and Risk Reduction Tips

Risk reduction tips can often take an unintentional victim blaming tone. With no intention to victim-blame, and with recognition that only those who commit sexual violence are responsible for those actions. Please consider the following risk reduction tips:

- If you have limits, make them known as early as possible.
- Tell a sexual aggressor “NO” clearly and firmly.
- Try to remove yourself from the physical presence of a sexual aggressor.
- Find someone nearby and ask for help.
- Take affirmative responsibility for your alcohol intake and drug use and acknowledge that alcohol and drugs lower your sexual inhibitions and may make you vulnerable to someone who views a drunk or high person as a sexual opportunity.
- Take care of your friends and ask that they take care of you. A real friend will challenge you if you are about to make a mistake. Respect them when they do. If you find yourself in the position of being the initiator of sexual behavior, you owe sexual respect to your potential partner. These suggestions may help you to reduce your risk for being accused of sexual misconduct. Clearly communicate your intentions to your sexual partner and give them a chance to clearly relate their intentions to you.
- Understand and respect personal boundaries.
- DON’T MAKE ASSUMPTIONS about consent; about someone’s sexual availability; about whether they are attracted to you; about how far you can go or about whether they are physically and/or mentally able to consent. If there are any questions or ambiguity, then you should assume you DO NOT have consent.
- Mixed message from your partner are a clear indication that you should stop, defuse any sexual tension and communicate better. You may be misreading them. They may not have figured out how far they want to go with you yet. You must respect the timeline for sexual behavior with which they are comfortable.
- Don’t take advantage of someone’s drunkenness or drugged state, even if they are responsible for their condition.
- Realize that your potential partner could be intimidated by you, or fearful. You may have a power advantage simple because of your gender or size. Don’t abuse that power.
- Understand that consent to some form of sexual behavior does not automatically imply consent to any other forms of sexual behavior.
- Silence and passivity should not be interpreted as an indication of consent. Read your potential partner carefully, paying attention to verbal and non-verbal communication and body language.

2019 Annual Fire Safety Report

Overview

The Trinity University Annual Fire Safety Report is published each year to provide fire statistics and information in compliance with the Jeanne Clery Disclosure of Campus Security. The Higher Education Opportunity Act (Public law 110-315) became law in August 2008, requiring all United States academic institutions to produce an annual fire safety report outlining fire safety practices, standards, and all fire-related on-campus housing statistics. This report includes data from January 1, 2016 thru December 31, 2018.

General Statement of University Owned/Controlled Student Housing

All 16 Residence Halls are covered by a fire alarm system which is monitored 24 hours/day, seven days/week. Also, 16 Residence Halls are covered with an integrated automatic sprinkler system.

Residence life staff receive intensive and comprehensive fire safety training at the beginning of each academic year.

Content of training provided:

- University fire prevention policy and rules
- What action to take if a fire is discovered
- Building evacuation assembly areas and personnel accounting procedures
- Fire extinguisher operation and hands-on demonstration

In addition, a program that covers emergency and evacuation procedures is reviewed regularly with the occupants and staff of each respective residence hall by the Residence Life staff. Every Residence Hall student room has an emergency evacuation map installed on the inside of the front door as well, to direct occupants to primary and secondary exits.
Fires
In the event of a fire on campus or in a Residence Hall, contact TUPD at (210) 999-7000. TUPD will contact the San Antonio Fire Department should a determination for further assistance be required.

All reports of a fire are documented by TUPD with a case number and if you have controlled any fire/smoke prior to calling TUPD, be sure to contact TUPD in order to investigate and document the incident. This is vitally important for disclosure in the annual fire statistics.

What to do:
- Activate the nearest fire alarm.
- Call 210-999-7000.
- Notify occupants and help those in the immediate area who may need assistance.
- Evacuate the building by the nearest exit.
- Confine the fire by closing doors as you exit.
- Do not re-enter the building until permitted to do so by emergency personnel.

Evacuation for each Residence Hall/Building:
Assembly areas are listed on this link:

Fire drills for Residence Halls are conducted in both Fall and Spring semesters.

The Department of Environmental Health and Safety provides fire safety demonstrations and guidance to all new and existing employees. Additional training is provided periodically, and at the request of individual departments.

Specific Fire Prevention Related Policies
It is the policy of Trinity University to provide faculty, staff, students and visitors with the safest possible environment, free from potential fire hazards. The primary goal of the university’s fire prevention program is to recognize hazardous conditions and take appropriate action before such conditions result in a fire emergency. This goal is accomplished by (1) conducting routine fire safety inspections of all university buildings, (2) increasing the fire safety awareness of employees and students by conducting periodic training on basic fire safety, and (3) conducting third party fire safety audits via our insurance consortia.

Regarding fire safety inspections, fire & life safety features of the buildings shall be in compliance with all applicable standards of the National Fire Protection Association (NFPA) and the City of San Antonio Fire Department. The Department of Environmental
Health and Safety conducts fire extinguisher inspections of all university buildings at least once a month. Some buildings may be inspected more frequently, as may be deemed necessary by the Director of Environmental Health and Safety.

The Department of Environmental Health and Safety will coordinate with the Trinity University Police Department, and the City of San Antonio Fire Department in the investigation of each fire incident.

To minimize the potential for fires at Trinity University, it is the policy of the university to prohibit open burning (i.e. open/exposed flame or combustion that produces heat, light or smoke, and has the potential to cause a fire) and the use of combustible decorations at all times (unless in accordance with other university policies and procedures, and or authorized by City of San Antonio Fire Department).

**Examples of prohibited items include:**
Portable space heaters, hibachis, candles, torches, incense sticks, hot plates, slow cookers, deep fryers, electric skillets, electric woks, griddles, sandwich makers/grills, and other similar type products (for cooking/warming purposes*), toaster ovens (for cooking/warming purposes*), flammable/combustible liquids (for recreational/personal use), fireworks, firecrackers, rockets, flares, sparklers and other devices, halogen lamps, ceiling/wall tapestries, live holiday trees or non-fire retardant artificial holiday trees (see Holiday Decorations).

*The “cooking” and “warming” options exclude cooking and warming done in areas designated and built for such purposes and only while the use of these devices are under the direct supervision of a competent individual.

**Barbeque grills and smokers are only allowed if they are permanently installed, or if they are portable. Grills must be at least 50 feet from any building and must be authorized by the Department of Environmental Health and Safety.**

**Holiday Decorations**
All decorations (i.e. holiday trees and lights, including extension cords) and ornaments must be of fire-resistant or non-combustible material, and U.L. rated. Holiday tree lights must be unplugged at the end of each day, and removed after the event or holiday season. Extension cords or decorative lights cannot be routed under rugs or carpets, through doorways or in any manner that could present a fall or trip hazard or impede egress.

Electric lights or electrically operated ornaments cannot be used on metal, aluminum or any other similar metal, which could induce an electric shock. Artificial snow and other decorative sprays should be used with extreme caution, and cannot be used in laboratory and/or clinical settings. Avoid spraying around exits, exit signs or any of the fire protection
equipment (i.e. fire hose cabinets, fire extinguishers, sprinkler heads and piping, fire alarm pull boxes, smoke detectors, etc.).

**Do not block doorways, exits, exit signs or any of the fire protection equipment in any manner that could present a fall or trip hazard, or impede egress.**
